## ANTI-SLIPERY PP HONEYCOMB PANEL USED AS SCAFFOLD PLANKS AND STAGES

It has been approved PP honeycomb panel can be successfully used as scaffold board or stages.

This PP honeycomb panel is a composite of CFRTP (continuous fibre reinforced thermal plastic) skins and high density of PP honeycomb core. The tests show the qualified mechanical values required by the industry.

An anti-slipery layer, UV approved, is applied onto the panel surface.

The advantages are :Low weight, durable and high supporting
