# LED Solar SpotLights

In daytime, when there is sunshine, the solar panel can convert the solar energy to electric energy and store it in the battery.

Adjustable Light & Solar Panel - Full range adjustable light angle to illuminate perfect spot and adjustable solar panel angle for optimum sun exposure, do not worry about the sunrise and sunset.

Auto On/Off Built-in Light Sensor - Turn the solar panel on and push it into the soft ground or mount on the wall, it will come on automatically at night and turn off automatically at dawn.

Then gather energy from the sun during the day.

Ideal home lighting, camping, Garden / Street / Landscape / Gazebo lighting, emergency and blackouts.

If any interest, please donot hesitate to contact us for more

Mia
