Hello Dear friend ,

It has been longtime that we haven't heard from you ? how are you ? hopinge verything goes well with you and your business .

Last time we sent the information of our LED street lamps and highbay lamps to you , whether your customers have interest in them ?

this model is the most popular one ,

because the price is very competitive ,

for **120w street lamps**

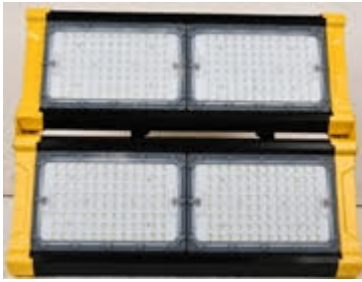

, our 120w housing **has heatsink** at the back , others not , we use Philips 3030 LED , if with UL TUV 5 years warranty drivers , can be **used 5-7 years** , the price is **76usd/pc** .

if just made with 3 years warranty driver , can be **used 3-5 years** , the price is just **64usd/pc** .

You can also have a look at our **high end project lamps and flood lamps**

You can choose MeanWell driver or SOSEN driver , the price won't be much difference . Because **MeanWell drive anti-thunder 4KV or 6KV** , but **SOSEN driver anti-thunder 12KV** . All pass UL / TUV /SAA certification and with 5 years warranty .

Looking forward to your reply , you can also purchase samples for testing firstly , so you can see the high quality of these lamps .

Yours Sincerely

Murray
